

This Document provides the specification and detail information of RFID Tag.

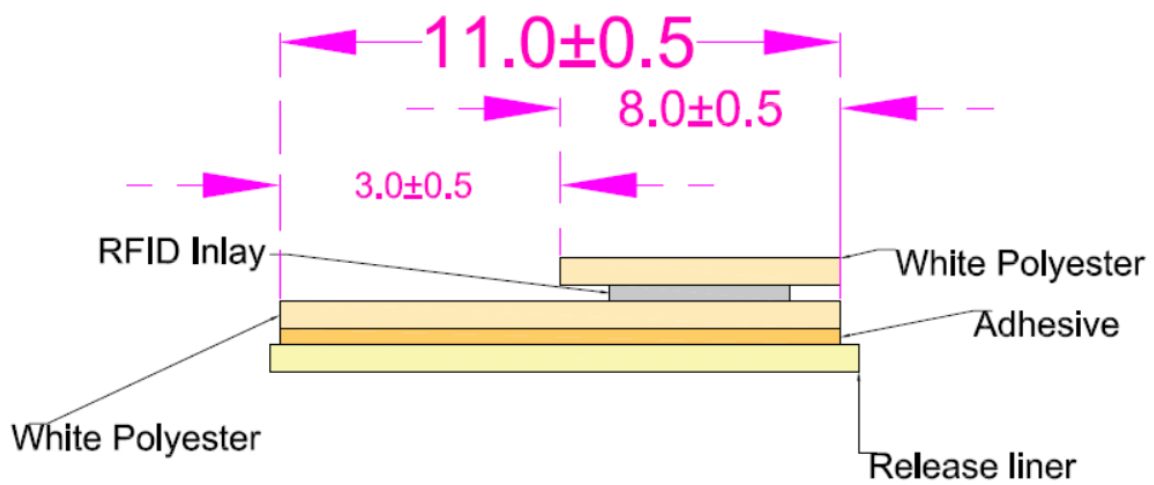

General Specification

Parameters	Specifications
Dimensions(L X W)	(105X11mm) 3mm lip with adhesive
Protocol	EPC Class 1 Gen2
Operating and Storage Temperature	(-50°C to 180°C)
Liner Adhesive	3M 467MP (UL certified)
Front Face Material	2mil White Polyester (UL Certified)

RFID CHIP:

Parameters	Specifications
Chip	Alien Higgs-9
Frequency	(860-930)MHz ETSI/FCC/Worldwide
EPC	Upto 496 bits
USER	688 bits
Memory Reliability	200,000 write cycles

Physical Tag details:-

Radiation Pattern:-
